

# Cost of US solar, wind, gas (2010-2040)

(LCOE in US cents per kilowatt hour)

# The Freeing Energy Project

- ⚡ The mission of the Freeing Energy Project is to educate and inspire energy fans towards accelerating the transition to clean, sustainable energy like solar, wind, and batteries.
- ⚡ The project has a deep focus on the consumerization of energy technology and its ability to enable affordable, reliable, self generation, or as we call it, local energy.
